

TEMPUS-REX

Make the most of your time

Montreal, April 20th 2010
Tempus-Rex Press Release

FOR IMMEDIATE RELEASE

Tempus-Rex

An application for professionals who know TIME is their greatest asset.

Montreal, April 19th, 2010 – Tempus-Rex launches a consumer oriented Software as a Service (SaaS) initiative providing time capture on the BlackBerry smartphone.

Service professionals like lawyers, accountants and consultants who rely on the BlackBerry Smartphone to deliver services will never again miss an opportunity to capture their time for billing or any other purpose.

All phone calls, e-mails, calendar items or activities that flow through the BlackBerry are captured by T-Rex as they happen. T-Rex is fully integrated with all BlackBerry functions and captures time seamlessly, without requiring professionals to change how they work. All captured time is managed and archived securely at www.tempus-rex.com.

T-Rex allows sole practitioners and service professionals in small firms and partnerships to capture time and events for billing - without the need to install and maintain software themselves. T-Rex uses the proven TimeKM™ Mobile Engine currently installed on over 18,000 BlackBerry units worldwide.

T-Rex was designed by service professionals for service professionals. The T-Rex application is fully customizable, matching the unique work habits of busy professionals to ensure ultimate productivity.

ABOUT TEMPUS-REX

Tempus-Rex (www.mobiletimecapture.ca) is a partnership created by three companies; PCMS (www.pcms.com), PensEra (www.pensera.com) and Momentummm (www.momentummm.ca). Tempus-Rex combines the unique assets and skills of each firm to create an exciting new offering for the global professional services market.

For more information, and to download an immediate, no hassle free trial of Tempus-Rex, visit www.mobiletimecapture.ca and start capturing time that could have been lost forever.
