General information about Tempus-Rex can be found at [www.tempus-rex.com](http://www.tempus-rex.com).

Using Tempus-Rex on their Blackberry Smartphones will help California lawyers increase billing transparency and client satisfaction with more accurate and detailed time reporting. The T-Rex application will also reduce the frustration and inconvenience of time tracking by connecting to how members work. There is also a great opportunity to reduce lost revenue by capturing all relevant client and case information as activities occur.

Any phone call, e-mail, calendar entry or activity is captured as it happens, without disrupting workflow. For revenue conscious firms T-Rex is more than convenient time tracking; it is also a secure revenue management system.
